

ActiVote

Registration Guide

1. Take the plastic strip out of the bottom of each device. This activates the batteries (AAA).
2. Plug in the ActivHub into a USB port on your computer before launching ActiInspire.
3. Open ActiInspire.
4. On the dashboard, select Configure. Then, select the ActiVote. Select Register.

5. Select the number of devices you are registering. Select **Next**.
8. Next, follow the directions as follows.

- a. Press and hold the central Registration button (orange flame)
- b. The red and green light turn on
- c. Press the 3-letter pin code on each device
- d. Screen will close when all devices have been registered
